

What to do when you see only black screen when you open cZeus in your Android device?

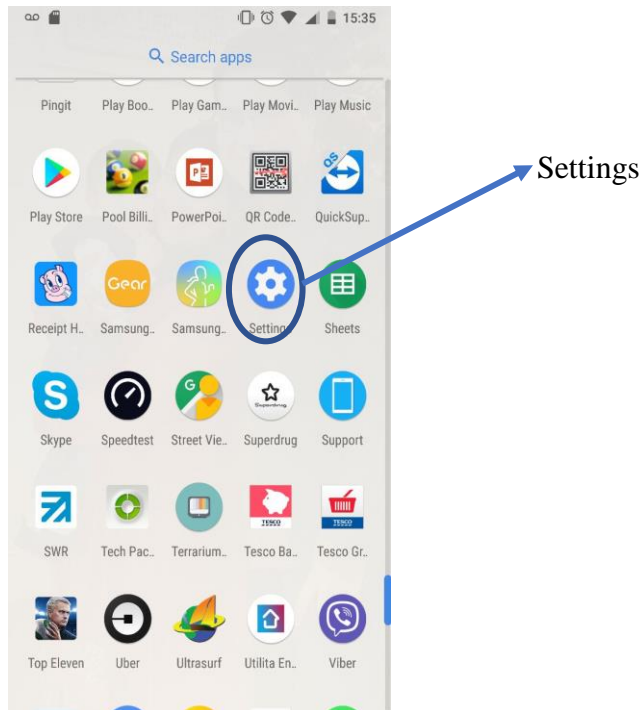

*Figure 1: Screen shot of black screen when opening cZeus Puzzles*

Reason:

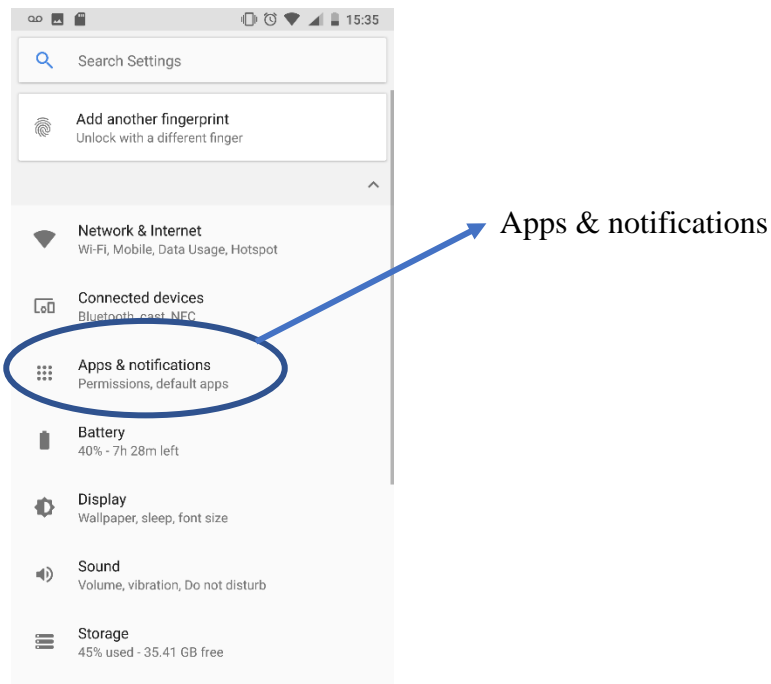

The black screen appears as cZeus Puzzle requires permission to use the device storage but when it is not allowed, the app cannot function causing this black screen to appear.

Fix:

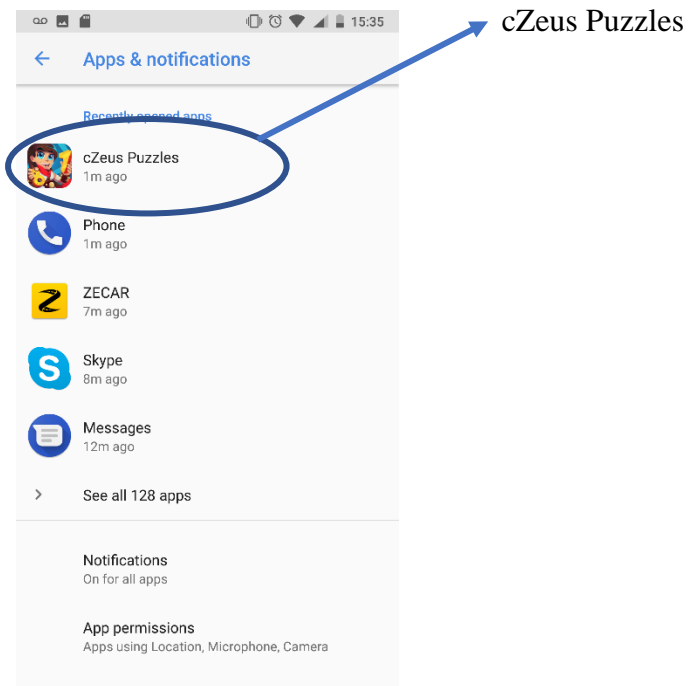

1. Go to settings

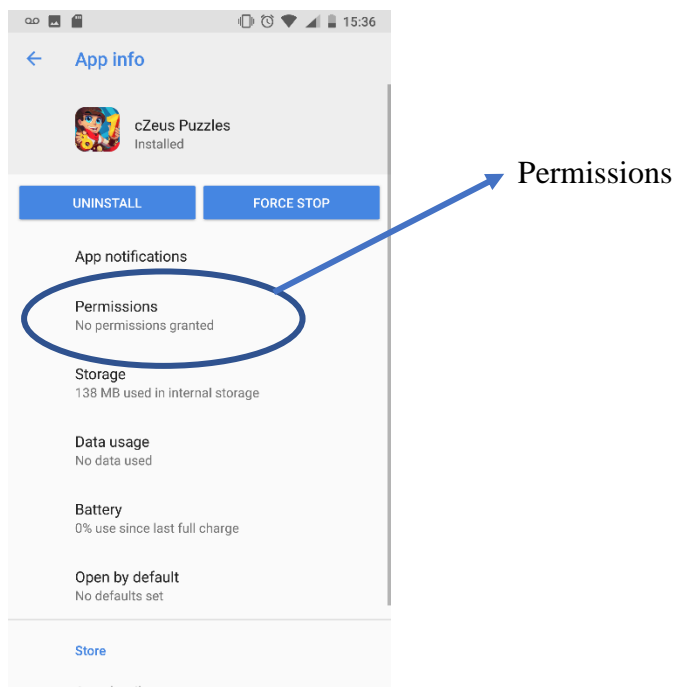

2. Go to Apps and notifications

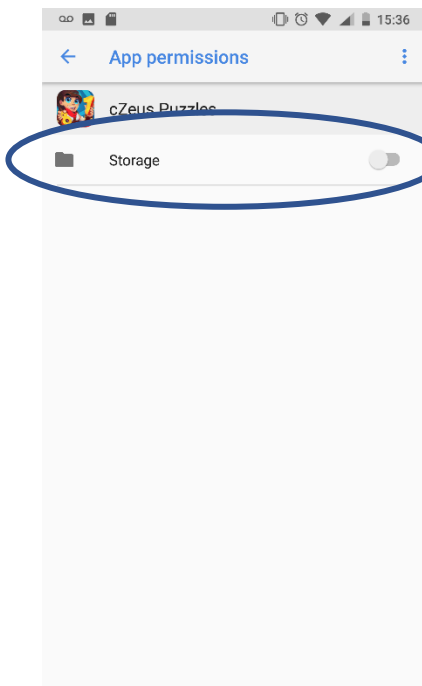

### 3. Click on cZeus Puzzles

### 4. Click on Permissions

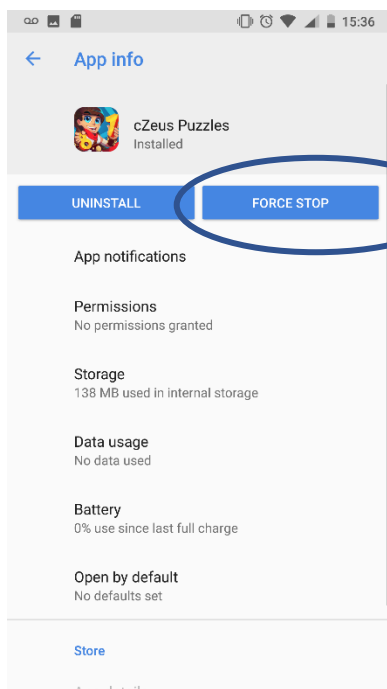

5. Allow storage permission

Switch the permission to allow storage permission

6. Go one step back and Force Stop the app.

Force Stop

7. Now open the app. It should be running fine.
